

43M COLLISION AVOIDANCE MIRROR MONITOR

SPECIFICATIONS

Part No. SV-LCD43M-KIT

Display Size	4.3 in
Aspect Ratio	4:3
Resolution (monitor)	480(h) × 272(v)
Video Standard	NTSC / PAL (selectable)
Audio	Yes; integrated speaker
Audio/Video In	N/A
Audio/Video Out	N/A
Synchronization	Internal
Cameras Supported	2 ×
Shutters Supported	N/A
Sensors Supported	2 ×
Display Mode	Single
Parking Distance Grid Lines	Yes
Mirror Image	Yes
Dimmer	Yes; automatic
Brightness	400 cd/m ²
Backlit Buttons	No
On-Screen Display	Contrast, Brightness, Color, Normal/Mirror Image, CAM Select
Control Box	Integrated
Power Supply	12 ~ 24 V DC
Power Consumption	≤5W
Operating Temperature	-4° F ~ 158° F (-20° C ~ 70° C)
Storage Temperature	-22° F ~ 176° F (-30° C ~ 80° C)
Weight	1.28 lbs (20.48 oz)
Dimensions (w × h × d)	10.9 × 1.18 × 3.58 in (276 × 30 × 91 mm)

The 43M Mirror Monitor offers a unique collision avoidance solution by integrating a 4.3-inch monitor inside a typical rearview mirror. This innovative arrangement saves space in otherwise cramped vehicle interiors as well as increases safety by placing the rearview image where most drivers look by instinct.

Seamless Integration

With the 43M Mirror Monitor, there is no additional rear vision monitor to mount in the cabin. The 43M simply replaces the existing rearview mirror. This places the monitor where most drivers instinctively look and increases safety by eliminating any obtruding objects in the cabin.

Automatic Operation

The LCD screen turns on and appears automatically when the vehicle is placed in reverse while an anti-glare surface ensures a clear view.

Features

- Can be used as a normal rearview mirror without LCD screen during normal vehicle operation
- Accepts up to two cameras and includes a convenient parking guideline feature

WHAT'S IN THE BOX?

- | |
|---------------------|
| 1 × Power Harness |
| 1 × Electrical Tape |
| 1 × User Manual |
