

CP4 TOUCH SCREEN MONITOR

The CP4 monitor is specifically engineered to work exclusively with any of Safety Vision's Observer Series of recorders, offering total plug-and-play operation. Complete with a 7-inch touch screen display, the CP4 monitor features live camera views, built-in speakers, immediate video playback, and an integrated panic button to manually trigger an event and mark critical video. The CP4 monitor is capable of displaying up to 9 camera views simultaneously, display a rear vision camera when the vehicle is in reverse gear, and includes multiple split screen modes. Authorized users with secure login credentials, have the option to sign in and access the recorder's configuration settings, allowing for quick and easy system setup for your fleet.
