

FORESIGHT PRO

VIDEO MANAGEMENT SOFTWARE

Foresight Pro is the powerful video management software for the Observer series of recorders that offers all the playback and investigating tools you need – right at your fingertips. When paired with WIFI and cellular networking, Foresight Pro's back-end solution Provides features such as wireless video downloading, system email health reports, custom email alerts, live video streaming and fleet tracking. View every camera angle at once and zoom in on important details. Use the blur feature to Protect the identity of your drivers and passengers. See speed, route history, and other vehicle metadata such as turn signals, brakes, hazard lights and much more, all synchronized with video and graphically displayed for easy analysis. A convenient Evidence folder allows users to label, categorize, organize and generate incident reports after reviewing critical video clips. Also available as a downloadable app, Foresight Pro may be installed onto any internet accessible mobile device or tablet.
