

TOTALVIEW HD

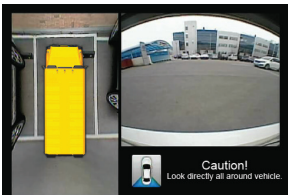

HD BIRD'S-EYE VIEW CAMERA SYSTEM

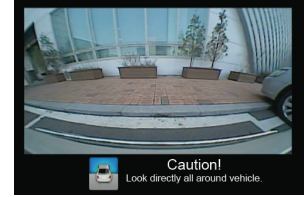

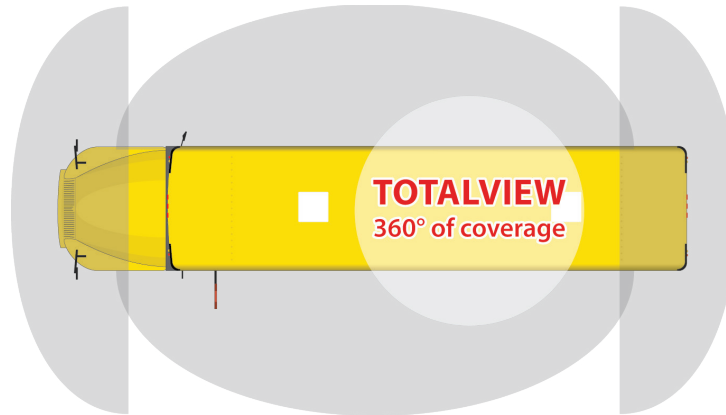

Top + Front View - Split Screen

Top + Left View - Split Screen

Top + Rear View - Split Screen

Front View - Full Screen

Top + Right View - Split Screen

Rear View - Full Screen

The TotalView HD system provides a 360° view of vehicle surroundings, allowing drivers to maneuver and park with more ease. Using four wide-angle cameras positioned on each side of the vehicle to create a single bird's eye view, TotalView "sees what you can't see" for navigating even in the tightest of spaces. Each camera offers a 200° field of view in 1080p HD resolution and is completely waterproof with an IP69K rating. TotalView HD is compatible with any of Safety Vision's HD monitors and can provide a split screen bird's eye view + a view from any of the four compact cameras.
